13. REVIEW AND ROUTING

REVIEW COMMENTS AND RECOMMENDATION

This inspection involved an inventory of [redacted] firearms and the examination of [redacted] Forms 4473. For the past twelve months the licensee acquired and disposed of approximately [redacted] firearms. This was the licensee's first inspection. I recommend a warning letter in lieu of a warning conference, and no recall inspection.

REVIEW COMMENTS AND RECOMMENDATION

A warning conference is prescribed by ATF O 5370.1B because the licensee failed to mark firearms he manufactured.

I recommend a warning letter as the most appropriate outcome for the inspection beause the violation did not affect traceability. All the firearms were previously manufactured and properly marked by other manufacturers then accurately documented in the licensee's A&D record. Furthermore, the licensee is a low compliance risk, having no traces, missing or stolen firearms, multiple handgun sales, or trafficking indicators. He was provided with the marking ruling that covers his situation and will be re-inspected in any case within the next 5 years because he holds a type 07 FFL.
